Plant Health Act

Declaration of Quarantine Place for
Watermelon Plants – Lambells Lagoon Area

I, Stephen James West, Chief Inspector of Plant Health:

- (a) under section 18(1) of the *Plant Health Act*, declare the properties listed in Schedule 1 and depicted shaded in grey on the plans in Schedule 2 to be a quarantine place for the control of the declared pest Cucumber Green Mottle Mosaic Virus (the **declared pest**); and
- (b) declare the quarantine place for the purposes mentioned in section 18(2)(b) and (c)(i) to (iv) and (d) of the Act; and
- (c) specify that the following restrictions and prohibitions apply to the whole of the quarantine place:
 - (i) the movement of any declared host plant (a **host plant**), or material from a host plant, within the quarantine place is restricted to movement within the property on which the host plant is located;
 - (ii) the removal of any host plant, material from a host plant or items associated with the production of a host plant, from a property within the quarantine place (other than removal under the direction of the Chief Inspector) is prohibited;

- (iii) the movement from a property within the quarantine place of equipment is prohibited unless the equipment has been cleaned and disinfected in accordance with the instructions of the Chief Inspector;
 - (iv) the propagation or planting of host plants within the quarantine place is prohibited; and
- (d) under section 18(2)(c)(i), impose the requirement that the owner of a property in the quarantine place must permit access to the Chief Inspector of Plant Health, inspectors of plant health and other persons authorised by the Chief Inspector to ensure compliance with the requirements of this notice;
- (e) specify that the reason for the decision to make this declaration is because the quarantine place is affected by the declared pest; and
- (f) specify that a person whose interests are or might be affected by the decision has a right to apply under section 58 of the Act for reconsideration of the decision; and
- (g) under section 19(2) of the Act, require the owners of host plants in the quarantine place to treat and dispose of the host plants and associated material from a host plant:
- (i) within 2 weeks of the date of this instrument; and
 - (ii) as directed by the Chief Inspector.

Dated 9 October 2014

S. J. West
Chief Inspector of Plant Health

Note

Citrullus lanatus (watermelon) was declared to be a host plant for Cucumber Green Mottle Mosaic Virus by notice in Gazette S94 dated 3 October 2014.
