

Getting started with NLIS

Getting started – sending off cattle:

1. Ensure your property is registered with a Property Identification Code (PIC).
2. Register for an NLIS account – www.nlis.com.au
3. Order NLIS Devices – see Factsheet and Order form.
4. Apply NLIS Devices to your Livestock before they leave the property.
5. Record Livestock Movements onto and off your property.
6. Check your NLIS account to see information about your livestock.

Getting started – receiving cattle:

1. It is the responsibility of the owner of the property receiving cattle to ensure that the NLIS devices are read with an NLIS reader and that the RFID numbers are sent to the national NLIS database. (This will be done at the saleyard for all saleyard cattle).
2. Obtain a reader and utilise internet access to open an account with the NLIS database.
3. Upload RFID numbers to the national database within 48 hours of the stock moving.
4. As an alternative the owner may get a 3rd party provider to carry out this task.

For assistance with the NLIS database:

NLIS Helpdesk from 9am to 5pm (Sydney time), Monday to Friday - 1800 683 111
