

Northern Territory Beekeeper Registration Form

Return completed form to NT Plant Biosecurity via email honeybee@nt.gov.au
or post Bee Biosecurity PO Box 8760, Alice Springs NT 0871

Anyone that owns European Honey Bees (EHB) within the Northern Territory must register their hives in accordance with regulations 50 and 51 of the *Northern Territory Livestock Regulations, 2009*.

Once your registration is processed, a one off unique hive identification number (HIN) will be issued. This number is required to be displayed on all of your managed hives (brood boxes) for easy identification and to aide with traceability, should a biosecurity event occur.

Your registration period is two years, after which time, you will need to renew it. It is your responsibility to keep your information up to date, including movement of apiary sites and transference of ownership (including increase or decrease of hive numbers).

Declaration

I _____ hereby declare and acknowledge that:

- All information in this form is true and correct at the time of application.
- Note that this application does not automate the registration of my beehives. Only formal notification from NTG and issuance with a unique hive identification number and certification as a NT beekeeper will do so.
- Any changes that need to be made in relation to my beekeeping will be made on the approved forms and in accordance to the NT *Livestock Regulations 2009*.
- By registering myself as a beekeeper, I acknowledge that there is an industry code of practice that is recommended to be followed to ensure the health and wellbeing of my bees and appropriate level of biosecurity awareness.
- My personal information will be collected and used by the Department of Industry, Tourism and Trade. My information may be disclosed:
 - if it is required by the [Information Act 2002](#)
 - to other agencies if an exotic pest or disease is found to aid in biosecurity response activities.
