Declaration

I (insert name)

hereby declare and acknowledge that:

- all information in this form is true and correct at the time of application
- this application does not automate the registration of my beehives - only formal notification from NTG and issuance with a unique hive registration code and certification as a NT beekeeper will do so
- any changes that need to be made in relation to my beekeeping will be made on the approved forms and in accordance to the Livestock Regulations 2009¹
- by registering myself as a beekeeper, I acknowledge that there is an industry code of practice that is recommended to be followed to ensure the health and wellbeing of my bees and appropriate level of biosecurity awareness
- my personal information will be collected and used by the Department of Industry, Tourism and Trade. My information may be disclosed:
 - if it is required by the *Information Act 2002*²
 - to other agencies to aid in biosecurity response activities.

Office use only^				
Date received		Approved / Not approved	Name	
Date issued		HRC		

Further information

Once your registration is processed, a one-off unique hive registration code (HRC) will be issued. This code is required to be displayed on all of your managed hives (brood boxes) for easy identification and to aid with traceability, should a biosecurity event occur.

Your registration period is two years, after which time, you will need to renew it. It is your responsibility to keep your information up to date, including movement of apiary sites, increase or decrease of hive numbers and transference of ownership.

How to submit

Return completed form to NT Plant Biosecurity via email honeybee@nt.gov.au or post to Bee Biosecurity PO Box 8760, Alice Springs NT 0871
