## INTRODUCTION OF BCA96

The new performance based Building Code of Australia BCA96 (including amendments 1 and 2) was adopted on 7 January 1998 in the Northern Territory by virtue of changes to the NT Building Regulations notified in the NT Government Gazette S1 on 7 January 1998.

If the transitional provision of Section 51 of the *Building Act 1993* is to be applied, the required building certifier's certification in writing is to be included with the Permit to Build documentation submitted to the Director and owner /owners agent.

FABIO FINOCCHIARO  
Director  
Building Control
