

Radiation Protection – Accredited Companies

The list below provides contact details for companies with personnel who hold a certificate of accreditation under Section 18 of the *Radiation Protection Act*. Only the holder of a certificate of accreditation can perform work on a radiation source, and/or issue a Certificate of Compliance for a radiation source or place.

This list is divided into the following categories:

1. Medical
2. Industrial
3. Shielding Design and Assessment
4. Security Assessor

Please note that:

- Whilst a company is listed, only the person who holds a certificate of accreditation can work on a radiation source, and/or issue a Certificate of Compliance.
- This list only contains companies who wish to be publically listed; this is not the full list of companies with personnel who hold a certificate of accreditation.
