#### **Disclaimer**

The data in this publication were predominantly collected by conducting a face-to-face survey of businesses within town boundaries during mid-2017. The collection methodology was created in accordance with Australian Bureau of Statistics data quality framework principles. Data in this publication are only reflective of those businesses reported on as operating in the town at the time of data collection (see table at the end of publication for list of businesses reported on).

To comply with privacy legislation or where appropriate, some data in this publication may have been adjusted and will not reflect the actual data reported by businesses. As a result of this, combined with certain data not being reported by some businesses, some components may not add to totals. Changes over time may also reflect business' change in propensity to report on certain data items rather than actual changes over time. Total figures have generally not been adjusted.

Notes for each table and chart are alphabetically ordered and listed at the end of the publication.

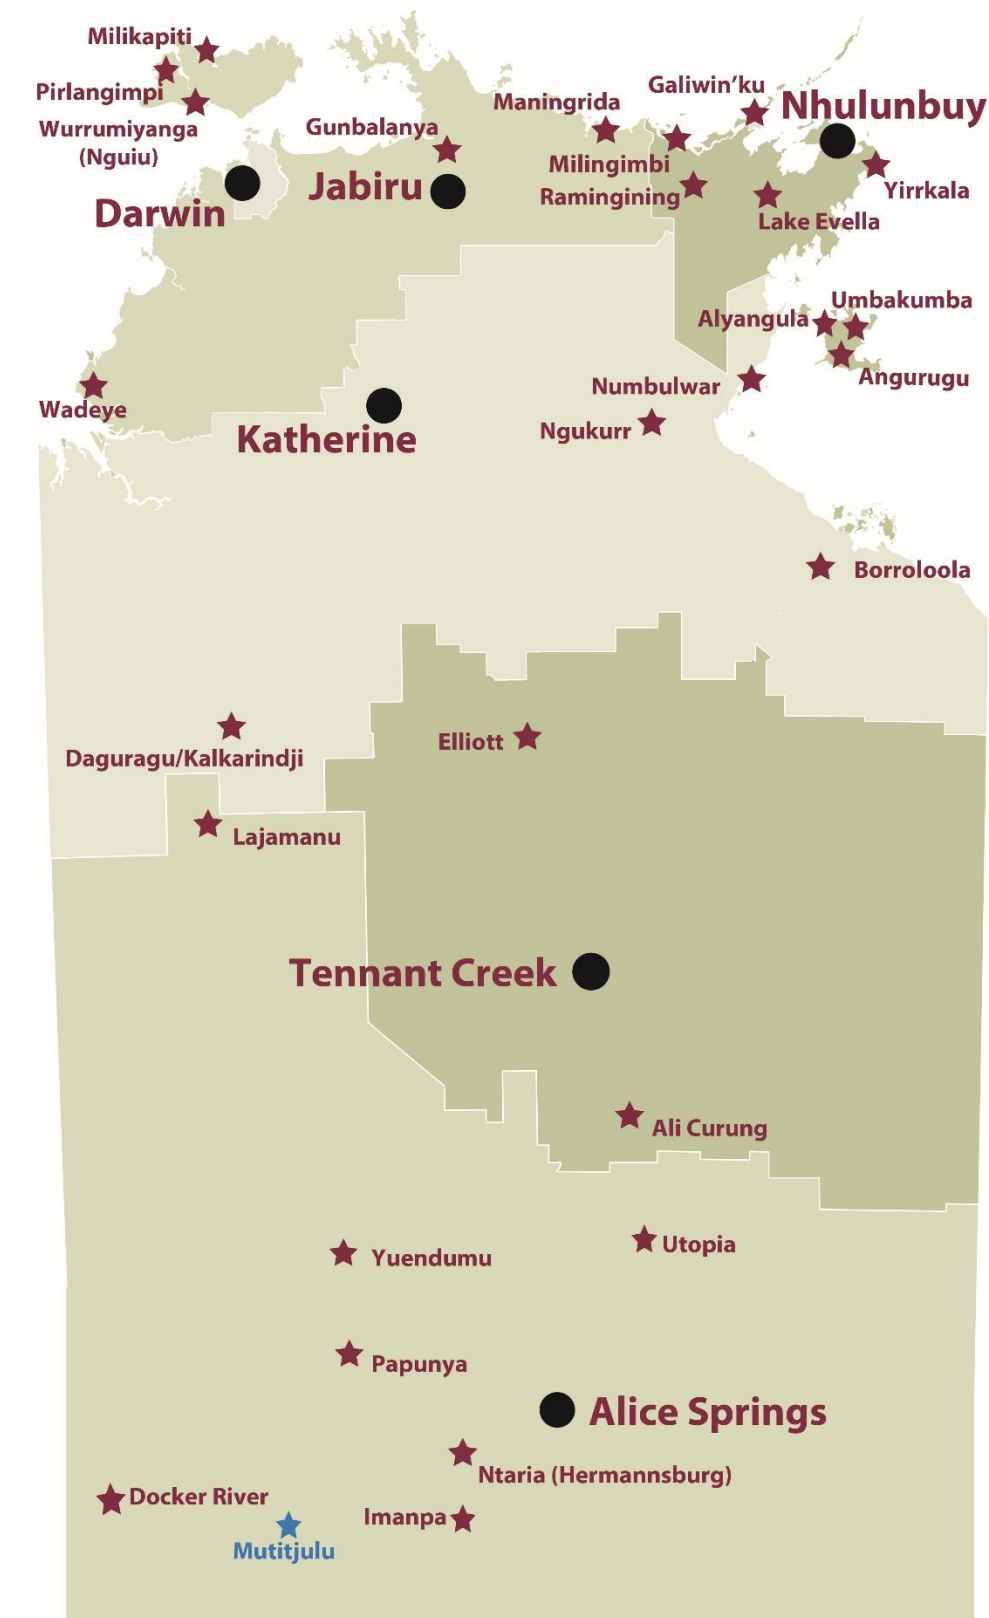

Any use of this report for commercial purposes is not endorsed by the Department of Trade, Business and Innovation.

## Mutitjulu

Mutitjulu is located inside the boundary of the Uluru-Kata Tjuta National Park 460 kilometres south west of Alice Springs, with a population of 1584 residents.

Source: Department of Trade, Business and Innovation

## Introduction

This jobs profile provides a snapshot of jobs and the characteristics of job holders in Mutitjulu as at July 2017.

This job profile is one of 28 profiles developed for remote towns in the Northern Territory. It is anticipated these and subsequent profiles will contribute to a robust evidence base to inform decision making in and relating to these remote Territory towns.

This profile contains information collected by the Northern Territory Department of Trade, Business and Innovation from businesses operating within the town and is supplemented by other administrative data sets and information.

Each profile provides up-to-date information that is intended to inform the planning and design of current and future government programs and as an evidence base to inform decision making relating to workforce development and enterprise and job opportunities.

The data collection methodology and corresponding questionnaire were created in partnership with the Australian Bureau of Statistics (ABS) and in accordance with ABS data quality framework and survey principles.

The surveys were predominantly conducted by the Department's Small Business Champions and Workforce Training Coordinators, on a face-to-face basis with business representatives.

The information collected and reported on represents a significant goodwill investment by those businesses and organisations that participated. Each business is listed at the end of this publication.

## Summary

The 2017 jobs profile was developed based on responses from 14 businesses providing jobs to Mutitjulu people. Of these, there were:

- 10 businesses from the private sector, accounting for 121 filled jobs or 67% of total filled jobs
- 4 businesses from the public sector, accounting for 60 filled jobs or 33% of total filled jobs

*Note: Yulara Jobs are directly or indirectly related to Mutitjulu and Docker River - directly employing Aboriginal Persons within Yulara and indirectly providing services of Health and Education to the remote towns.*

A total of 195 filled and vacant jobs in Mutitjulu were reported.<sup>1</sup>

The 2017 profile highlights:

- there were 181 filled jobs of which:
  - 78 jobs (43%) were filled by Aboriginal persons
  - 103 jobs (57%) were filled by non-Aboriginal persons
  - 70% of employed Aboriginal people are working in the private sector
  - Aboriginal females made up 42% of total Aboriginal filled jobs
- there were 14 vacant jobs, of which:
  - job vacancies as a percentage of jobs is 8%
  - job vacancies equate to 1 in 14 jobs
  - 5 vacancies were in the Professional areas
- Arts and Recreation Services was the largest industry employer in 2017 with 62 filled jobs followed by Health Care and Social Assistance with 49
- Business and Clerical was the largest training activity sector in 2016, with 39 students followed by Arts, Entertainment, Sports and Recreation with 30.

The overall population in Mutitjulu increased by 163 persons (11%) between 2006 and 2016 to 1584 persons.

In comparison, the overall Northern Territory population increased by 16.5% between 2006 and 2016.

In 2016, the working age population (15 years and over) in Mutitjulu was an estimated 1448 persons compared to 1256 in 2006 an increase by 15%.

There were 0.1 jobs in Mutitjulu per working age person compared to 0.4 jobs per working age person across the 28 remote towns in the Northern Territory.

---

<sup>1</sup> The number of filled jobs does not represent numbers of persons as a person may have several jobs or one job may be shared by more than one person.

In 2017 in Mutitjulu:

- there were 14 businesses reported on, of which:
  - 4 businesses were from the public sector (27%)
  - 10 businesses were from the private sector (73%).

## Notes

- (a) These counts represent numbers of filled jobs and not numbers of persons. As such the totals represent the total number of filled jobs, not the total number of employees. This count is not directly comparable to the total number of employed persons as a person may have several jobs or one job may be shared by more than one person.
- (b) Full-time is defined as a job usually requiring 35 hours or more per week or that required 35 hours or more work during the reference week. Part-time is defined as a job usually requiring less than 35 hours per week or that required less than 35 hours work during the reference week. The reference week refers to the period that respondents were asked to provide information about. In most instances it would be the week prior to the week the questionnaire was completed. Questionnaires were predominantly conducted in June and July.
- (c) Care needs to be taken when analysing the counts of filled jobs by the Aboriginal status of persons in the jobs. The Aboriginal status of the person employed in a job was reported by the business representative completing the questionnaire.
- (d) Sector was classified using the Standard Economic Sector of Classifications of Australia (SESCA), 2008.
- (e) Job permanency is classified according to what the business believes the level of job permanency is based on guidelines provided by data collectors. Those guidelines state a permanent job has paid annual and/or sick leave entitlements while a temporary job includes casual and fixed-term contract jobs.
- (f) Classified according to the Australian and New Zealand Standard Classification of Occupations (ANZSCO), 2006, major occupation level.
- (g) Other occupations include jobs where occupation was not stated, not known or inadequately described.
- (h) Classified using the Australian and New Zealand Standard Industrial Classification (ANZSIC), 2006, division level.
- (i) Care needs to be taken when analysing the counts of filled jobs by the gender of persons in the jobs. The gender of the person employed in a job is reported by the business representative completing the questionnaire.
- (j) Care needs to be taken when analysing the counts of filled jobs by the age of persons in the jobs. The age of the person employed in a job is reported by the business representative completing the questionnaire.
- (k) Students represent the number of individual clients that enrolled in a Vocational Education and Training unit during the calendar year.
- (l) Unit enrolments represent the count of individual units that students enrolled in during the calendar year.
- (m) Nominal hours delivered is the sum of the nominal hours of the units commenced during the calendar year regardless of when the course enrolment commenced.
- (n) Unit completions are the count of all successfully completed units reported in the calendar year regardless of the year of commencement of the units.
- (o) The Community Development Programme (CDP) supports job seekers in remote Australia to build skills, address barriers and contribute to their communities through a range of flexible activities. Under the CDP, job seekers with activity requirements are expected to do up to 25 hours per week of work-like activities that benefit their community. It should be noted that some CDP participants may be reported on within the profile if they are attached to a filled position with an employer captured in the survey. Due to confidentiality issues, data below 20 people is not published.
- (p) Population estimates for both 2006 and 2016 are taken from the estimated resident population (ERP) data produced by the Australian Bureau of Statistics (ABS) and based on Australian Statistical Geography Standard (ASGS) Statistical Area Level 1 (SA1) regions. ERP are official estimates of the Australian population, which link people to a place of usual residence with Australia. All ERP data sources, including the Census of Population and Housing (Census), are subject to error (including inaccuracies in collection, recording and processing data) and should be used with caution.
- (q) Indigenous population proportions, unemployment and workforce participation rates are based on ABS Census counts at ASGS Indigenous Locations (ILOCs) for each remote town.
- (r) Working-age population includes all residents aged 15 years and over (commonly referred to as the civilian population) and consists of persons that are employed, unemployed or not in the labour force.
- (s) A 'business' has been defined as any organisation that has undertaken productive activities in the last year, including companies, non-profit organisations, government departments and enterprises operating within the designated remote geography (town), and has one or more employees in paid employment and an Australian Business Number (ABN).
