Monthly Production report PR r66AAT

Approved Form – Petroleum Regulations 2020

This is the approved form for the purposes of regulation 66AAT(2) of the Petroleum Regulations 2020[1] (Regulations).

Use this form to submit a monthly production report for activities conducted under an approved Field Management Plan (FMP) or for the recovery of petroleum on an appraisal basis under an approval granted under section 57AAA of the *Petroleum Act 1984*[2] (Act) also referred to as a beneficial use of gas (BUG) approval. Refer to Schedule 4K of the Regulations.

You are required to submit one report for each petroleum interest area, including information for each well in that area. This report must be provided before the end of the 15th day of the month immediately following the month to which the report relates.

Note: do not use this form if you are testing an individual well which is not connected to a processing plant. Instead refer to the approved form for 'Monthly Production Test Report PR r66AAU[3]'.

This form is required in addition to daily well activity reports required by r66AAS for activities, including production testing for exploration or appraisal purposes. Refer to Schedule 4J of the Regulations.
