Northern Territory Government, November 2014, Darwin.

**Disclaimer**

*The data in this publication were predominantly collected by conducting a face-to-face survey of businesses within town boundaries during mid-2014. The collection methodology was created in accordance with Australian Bureau of Statistics data quality framework principles. Data in this publication are only reflective of those businesses reported on as operating in the town at the time of data collection (see Table 30 for list of businesses reported on).*

*To comply with privacy legislation or where appropriate, some data in this publication may have been adjusted and will not reflect the actual data reported by businesses. As a result of this, combined with certain data not being reported by some businesses, some components may not add to totals and changes over time may be partially reflective of business' change in propensity to report on certain data items rather than actual changes over time. Total figures have generally not been adjusted.*

*Caution is advised when interpreting the comparisons made to the earlier 2011 publication as the businesses identified and reported on and the corresponding jobs may differ between publications.*

*Notes for each table and chart are alphabetically ordered and listed at the end of the publication.*

*Any use of this report for commercial purposes is not endorsed by the Department of Business.*

This profile is intended to be used as an evidence base to inform decision making relating to workforce development and enterprise opportunity in this town. This is the second production and publication of the jobs profiles, the first was provided in 2011 to support the implementation of the National Partnership Agreement on Remote Service Delivery.

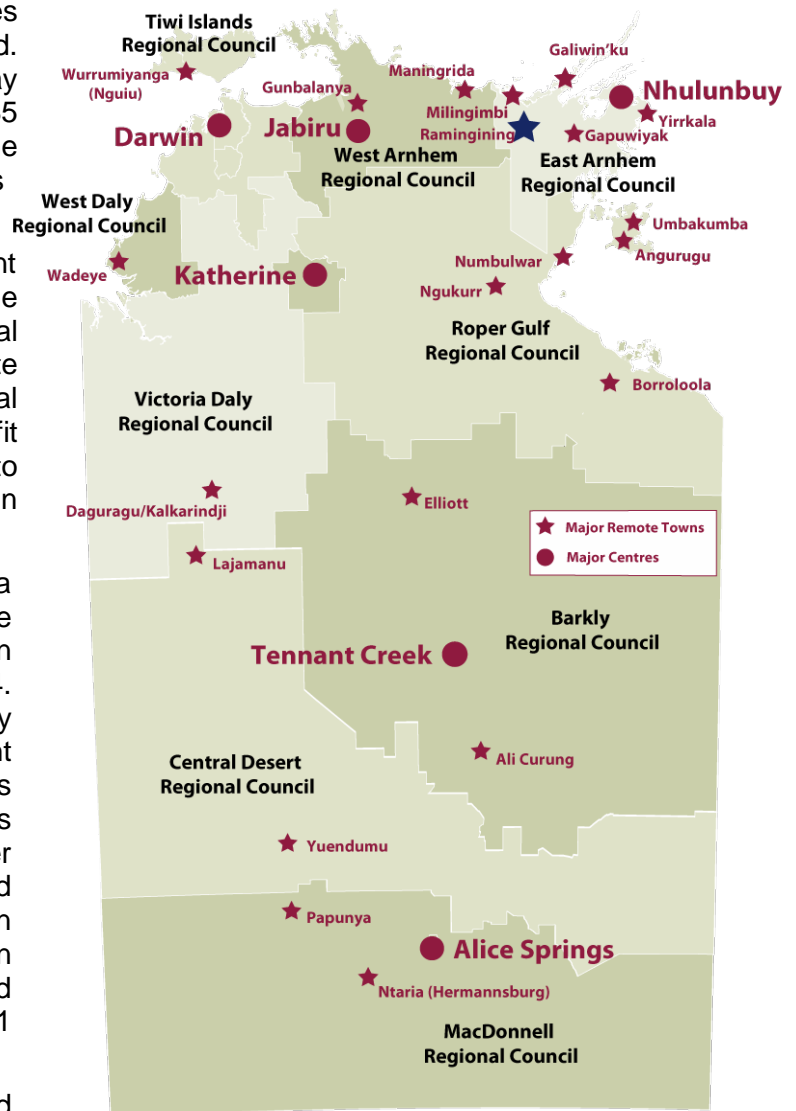

# Ramingining

Ramingining is located to the west of the Glyde River about 30 kilometres south-east of Milingimbi Island. Nhulunbuy is 206 kilometres away by air and Maningrida is 85 kilometres by road to the east. The main Nhulunbuy-Katherine road is 100 kilometres to the south.

The Northern Territory Government is working with Territorians, the Australian Government, regional councils, land councils, private businesses, Aboriginal organisations, not-for-profit organisations and industry groups to improve the standard of living in remote Territory communities.

This publication provides a snapshot of jobs and the characteristics of job holders in Ramingining as at June-July 2014. It contains information collected by the Northern Territory Department of Business from businesses operating within the town and is supplemented by other administrative data sets and information. This 2014 publication also compares and comments on variations that are evidenced between the 2014 and earlier 2011 collection periods.

The information collected and reported on represents a significant goodwill investment by those businesses that participated. Each business is listed at the end of this publication.

In Ramingining during 2013:

- there were 499 VET unit completions, a decrease of 105 unit completions from 2010
- the areas of VET activity with the most unit completions were Sales and personal service (150), Engineering and mining (102), and Community services, health and education (77)
- Sales and personal service reported the largest increase in unit completions (70) compared to 2010 and Primary industry reported the largest decrease in unit completions (-116) over the same period.

*Note: Since previous publications, the 2010 data have fallen in line with the new standardised reporting practices with an emphasis of all training activity undertaken in community regardless of funding stream. As such, figures for 2010 VET data in this publication may differ from previous publications.*

*The impact of the Remote Jobs and Communities Program (RJCP) being established in 2013 has played a significant role in the downturn of accredited training in many communities across the Territory.*

## Notes

- (a) These counts represent numbers of filled jobs and not numbers of persons. As such the totals represent the total number of filled jobs, not the total number of employees. This count is not directly comparable to the total number of employed persons as a person may have several jobs or one job may be shared by more than one person.
- (b) Full-time is defined as a job usually requiring 35 hours or more per week or that required 35 hours or more work during the reference week. Part-time is defined as a job usually requiring less than 35 hours per week or that required less than 35 hours work during the reference week. The reference week refers to the period that respondents were asked to provide information about. In most instances it would be the week prior to the week the questionnaire was completed. Questionnaires were predominantly conducted in June and July 2014.
- (c) Care needs to be taken when analysing the counts of filled jobs by the Indigenous status of persons in the jobs. The Indigenous status of the person employed in a job was reported by the business representative completing the questionnaire.
- (d) Sector was classified using the Standard Economic Sector of Classifications of Australia (SESCA), 2008.
- (e) Job permanency is classified according to what the business believes the level of job permanency is based on guidelines provided by data collectors. Those guidelines state a permanent job has paid annual and/or sick leave entitlements while a temporary job includes casual and fixed-term contract jobs.
- (f) Classified according to the Australian and New Zealand Standard Classification of Occupations (ANZSCO), 2006, major occupation level.
- (g) Other occupations include jobs where occupation was not stated, not known or inadequately described.
- (h) Classified using the Australian and New Zealand Standard Industrial Classification (ANZSIC), 2006, division level.
- (i) Care needs to be taken when analysing the counts of filled jobs by the gender of persons in the jobs. The gender of the person employed in a job is reported by the business representative completing the questionnaire.
- (j) Care needs to be taken when analysing the counts of filled jobs by the age of persons in the jobs. The age of the person employed in a job is reported by the business representative completing the questionnaire.
- (k) Students represent the number of individual clients that enrolled in a Vocational Education and Training unit during the calendar year.
- (l) Unit enrolments represent the count of individual units that students enrolled in during the calendar year.
- (m) Nominal hours delivered is the sum of the nominal hours of the units commenced during the calendar year regardless of when the course enrolment commenced.
- (n) Unit completions are the count of all successfully completed units reported in the calendar year regardless of the year of commencement of the units.
- (o) The Remote Jobs and Communities Program (RJCP) commenced on 1 July 2013, replacing Job Services Australia, Community Development Employment Projects (CDEP), Indigenous Employment Program and Disability Employment Services in 60 remote regions across Australia.
- (p) An RJCP job seeker is a person living in an RJCP Region who has been referred to Employment Services by Centrelink (Department of Human Services), or who has directly registered with an RJCP Provider as a community volunteer.
- (q) Employment outcomes are those claimed by RJCP Providers for assisting RJCP job seekers to achieve employment lasting 7, 13 or 26 weeks.
- (r) Examples of job seeker activities include: cultural activities, mentoring, voluntary work, unpaid work experience placement, self-employment, education and training, employment or training programs, part time or casual paid employment and other programs or activities.
- (s) The stated population figure reflects counts of usual residents captured in the 2011 Census of Population and Housing only. As such, this figure will likely understate actual resident population.
- (t) A 'business' has been defined as any organisation that has undertaken productive activities in the last year, including companies, non-profit organisations, government departments and enterprises operating within the designated remote geography (town), and has one or more employees in paid employment and an Australian Business Number (ABN).
