

Onshore Petroleum Fees and Securities PER r6

Approved Form - Petroleum (Environment) Regulations 2016

This document is an approved form pursuant to s 117J of the [Petroleum Act 1984](#)¹ for determination of the environmental security associated with regulated activities proposed in an Environment Management Plan (EMP) and to propose the EMP assessment fee, as required under regulations 6(3) and 6(4) of the [Petroleum \(Environment\) Regulations 2016](#)² (Environment Regulations).

The information in this form is being collected for the purpose of assessing your application for a decision on an EMP submitted under regulation 6 of the Environment Regulations and the associated EMP Assessment Fee and Environmental Security.

An application for an EMP decision is lodged when this Approved Form is complete and sufficient information is provided to enable a proper decision. Please use the checklists below to ensure the Approved Form is complete.

Only complete Approved Forms with sufficient information to enable a proper decision will be lodged and subsequently processed. The Department of Lands, Planning and Environment (the Department) will notify you when your Approved Form is lodged.

Section 1 – Interest Holder Details

For petroleum titles held by multiple interest holders, details must be completed for each interest holder. If insufficient room, please attach information to the Approved Form.

	Interest Holder 1	Interest Holder 2	Interest Holder 3	Interest Holder 4
Interest Holder Name				
ABN/ACN				
Petroleum Interest(s)				
Contact name				
Phone number				
Email address				
Nominated interest holder for all matters related to EMP? If 'no' each interest holder must sign Declaration.	Yes / No	Yes / No	Yes / No	Yes / No

² <https://legislation.nt.gov.au/Legislation/PETROLEUM-ENVIRONMENT-REGULATIONS-2016>

Consent to ongoing service of documents for this EMP via the email address above?	Yes / No	Yes / No	Yes / No	Yes / No
☐	ASIC extract attached? Companies must attach a copy of its Australian Securities and Investment Commission (ASIC) current extract listing office holders.			
Section 2 – EMP Details				
EMP title				
EMP date				
EMP revision number				
Petroleum Interest(s)				
Section 3 – EMP Assessment Fee				
Regulation 6(4) of the Environment Regulations requires the fee accompany an EMP submitted to the Minister for Lands, Planning and Environment (Environment Minister) for a decision. The EMP assessment fee is to be calculated in accordance with Schedule 1AA of the Environment Regulations, using the published Onshore Petroleum Fees and Levies Calculator and the Petroleum operations fees and levies webpage³. The completed Onshore Petroleum Fees and Levies Calculator must be submitted with this form.				
Please tick one of the below options for the reason you are making this submission:				
☐	New EMP (regulation 6 of the Environment Regulations)			
☐	Revised EMP (regulations 16(A), 17, 18 or 19 of the Environment Regulations)			
ASSESSMENT FEE: \$ (insert calculated assessment fee)				
☐	The completed Onshore Petroleum Fees and Levies Calculator is attached.			
Section 4 –Environmental Security				
Environmental securities for regulated petroleum activities are required under Section 117AP and 117AQ of the <i>Petroleum Act 1984</i>. Regulation 6(3) of the Environment Regulations requires an EMP submitted be accompanied by a proposal for the environmental security in connection with that plan, to be approved by the Environment Minister. The environmental security must be calculated for the total of all regulated activities described in the EMP submitted for a decision, using the Onshore Petroleum Environmental Security Calculator and the Onshore Petroleum Environmental Security Calculation Guideline. The completed Onshore Petroleum Environmental Security Calculator must be submitted with this form.				

³ <https://nt.gov.au/industry/energy/petroleum-operations/fees-and-levies#fees-for-environment-management-plans--emps>

A non-compliant environmental security calculation will be returned without determination, and a revised environmental security calculation will be required.	
Please provide your total environmental security calculation below:	
TOTAL ENVIRONMENTAL SECURITY \$0.00 (insert total calculated security amount here)	
☐	The proposed environmental security has been calculated using the Onshore Petroleum Environmental Security Calculator and the Onshore Petroleum Environmental Security Calculation Guideline.
☐	The proposed environmental security includes all potential remediation and rehabilitation activities required for the regulated activities in the submitted EMP.
☐	The completed Onshore Petroleum Environmental Security Calculator is attached.
Section 5 – Total Fees and Charges	
Section 2 – EMP Assessment Fee	\$0.00
Section 3 – Environmental Security	\$0.00
TOTAL	\$0.00
Section 6 – Payment Information	
Assessment Fee: Upon confirmation of the EMP Assessment Fee, an invoice will be issued by the Department for payment. The invoice will be issued to the interest holder nominated in Section 1 of this form as the interest holder for all matters related to the EMP. Assessment of the EMP will not commence under regulation 6 of the Environment Regulations until the EMP Assessment Fee is paid. Further information is provided on the Petroleum operations fees and levies webpage.	
Environmental Security: Section 117AR(3) of the <i>Petroleum Act 1984</i> allows the Environment Minister to allow an interest holder to provide an amount of security less than would otherwise apply if satisfied that the level of activity or stage in the performance of work does not require the full security. Upon approval of the Environmental Security, an invoice will be issued by the Department of Mining and Energy for payment of the Environmental Security for the regulated activities scheduled to occur up to 30 June. Payment of the environmental security is to be made by 31 July of each year. Regulated activities may not commence until the environmental security is paid (section 117AR(2) of the <i>Petroleum Act 1984</i>). Further detail is provided in the Onshore Petroleum Environmental Security Calculation Guideline⁴.

Section 7 – Public Register

In accordance with section 117AZD of the *Petroleum Act 1984*, the CEO of the Department of Mining and Energy must publish on the Agency's website a list of all securities held with sufficient detail to allow members of the public to understand the securities held in relation to each petroleum interest, and the total value of securities held from time to time for all petroleum interests.

Information may be suppressed if the CEO is satisfied there are grounds of commercial confidentiality. You may apply to have commercially confidential information withheld by application to the CEO of the Department of Mining and Energy.

☐	I acknowledge that information about security amounts will be published on the Agency's website.
Yes / No	I have completed and attached an application to have commercially confidential information withheld.

Section 8 – Declaration

A person with legal authority must sign the declaration.

I declare that I am authorised to act on the Interest Holder's behalf in relation to the Petroleum Interest(s) specified in Section 1.

I confirm that, to the best of my knowledge all information provided, including any attachments, addresses the relevant matters and is true, correct, complete, and does not contain misleading information.

I understand that providing misleading information, or making false representations are offences as per section 107 of the *Petroleum Act 1984*.

I understand that all information supplied as part of this form, including attachments, may be disclosed publicly in accordance with section 62A of the *Petroleum Act 1984*.

If you have any questions about how your personal information will be handled or would like to gain access to your personal information, you can contact the Petroleum Regulation Unit within the Environment Regulation Division in the Department. For more information, read our privacy policy.⁵
