Government Gazette

ISSN-0157-8324

No. G42

16 October 2019

Gazette Publication Fees

Fees apply to the publication of notices in the Government Gazette.

The cost per notice is as follows:

General Gazette/Regular timing \$150

Special Gazette/Urgent timing \$400

General information

The Gazette is published by the Office of the Parliamentary Counsel.

The Gazette will be published every **Wednesday**, with the closing date for notices being the previous Friday at 4.00 pm.

Notices not received by the closing time will be held over until the next issue.

Notices will not be published unless a Gazette notice request form together with a copy of the signed notice and a clean copy of the notice in Word or PDF is emailed to gazettes@nt.gov.au

Notices will be published in the next issue, unless urgent publication is requested.

Availability

The Gazette will be available online at 12 Noon on the day of publication at <https://nt.gov.au/about-government/gazettes>

Unauthorised versions of Northern Territory Acts and subordinate legislation are available online at <https://legislation.nt.gov.au/>

Public Holidays Act 1981

Revocation and Appointment of Additional Public Holidays

I, Gerald Francis McCarthy, Minister for Public Employment:

- (a) under section 6 of the *Public Holidays Act 1981* and with reference to section 43 of the *Interpretation Act 1978*, revoke the appointment of additional public holidays made by instrument titled "Additional Public Holidays" dated 22 May 2017 and published in *Gazette* No. G23 of 7 June 2017; and
- (b) under section 6 of the *Public Holidays Act 1981*, appoint each of the following days to be a public holiday to be observed in each specified part of the Territory by all sections of the community in that part of the Territory:
 - (i) for the part of the Territory described in Schedule 1 – Friday 24 July 2020 (Darwin Regional Show Day);
 - (ii) for the part of the Territory described in Schedule 2 – Friday 17 July 2020 (Katherine Regional Show Day);
 - (iii) for the part of the Territory described in Schedule 3 – Friday 10 July 2020 (Tennant Creek Regional Show Day);
 - (iv) for the part of the Territory described in Schedule 4 – Friday 3 July 2020 (Alice Springs Regional Show Day);
 - (v) for the part of the Territory described in Schedule 5 – Friday 26 June 2020 (Borroloola Regional Show Day).

Dated 8 October 2019

G. F. McCarthy
Minister for Public Employment

Schedule 1

All that parcel of land in the Northern Territory of Australia described as follows:

the part of the Northern Territory of Australia north of the parallel of south latitude 13 degrees 34 minutes and of the parts of the Northern Territory of Australia being the whole of the Anindilyakwa area described in Schedule 6 to the *Aboriginal Land Rights (Northern Territory) Act 1976* (Cth) and the whole of the Daly River area described in Schedule 1, Part 1 to that Act.

Schedule 2

All that parcel of land in the Northern Territory of Australia bounded by lines described as follows:

commencing at the intersection of the parallel of south latitude 13 degrees 34 minutes with the sea coast of the Gulf of Carpentaria; thence generally southerly and south-easterly by the said sea coast to intersect the parallel of south latitude 15 degrees 30 minutes; thence west by the said parallel to intersect the meridian of east longitude 135 degrees; thence south by the said meridian to intersect the easterly prolongation of the northern boundary of Northern Territory Portion 2845; thence westerly by the said prolongation, the northern boundary of Northern Territory Portion 2845 and part of the northern boundary of Perpetual Pastoral Lease 1003 (Cattle Creek) to intersect the meridian of east longitude 132 degrees; thence south by the said meridian to intersect the easterly prolongation of the northern boundary of Pastoral Lease 826 (Suplejack); thence westerly by the said prolongation, the northern boundary of Pastoral Lease 826 and its westerly prolongation to intersect the meridian of east longitude 129 degrees being Northern Territory and Western Australia border; thence north by the said meridian to intersect the sea coast of the Timor Sea; thence generally easterly by the said sea coast to intersect the left bank of the Fitzmaurice River; thence generally easterly by the said left bank to intersect the southerly prolongation of the most easterly boundary of Northern Territory Portion 1637; thence northerly, westerly and again northerly by the said prolongation, an eastern, a northern and an eastern boundary of the said Portion to intersect the parallel of south point of commencement, thence easterly by the said parallel to the point of commencement, and including all Northern Territory of Australia coastal islands between the parallels of south latitude 13 degrees 34 minutes and 15 degrees 30 minutes, but excluding therefrom all islands within the Anindilyakwa area described in Schedule 6 to the *Aboriginal Land Rights (Northern Territory) Act 1976* (Cth).

Schedule 3

All that parcel of land in the Northern Territory of Australia bounded by lines described as follows:

commencing at the intersection of the parallel of south latitude 21 degrees 12 minutes with the meridian of east longitude 138 degrees being a point on the Northern Territory and Queensland border; thence west by the said parallel to intersect the meridian of east longitude 132 degrees; thence north by the said meridian to intersect the northern boundary of Perpetual Pastoral Lease 1003 (Cattle Creek); thence easterly by part of the said boundary, the northern boundary of Northern Territory Portion 2845 and its easterly prolongation to intersect the meridian of east longitude 135 degrees; thence sought by the said meridian to intersect the parallel of south latitude 18 degrees 30 minutes; thence east by the said parallel to intersect the meridian of east longitude 138 degrees being the Northern Territory and Queensland border; thence south by the said border to the point of commencement.

Schedule 4

All that parcel of land in the Northern Territory of Australia bounded by lines described as follows:

commencing at the intersection of the parallel of south latitude 21 degrees 12 minutes with the meridian of east longitude 138 degrees being a point on the Northern Territory and Queensland border; thence south by the said meridian to intersect parallel of south latitude 26 degrees being the south-eastern corner of the Northern Territory; thence west by the said parallel to intersect meridian of east longitude 129 degrees being the south-western corner of the Northern Territory; thence north by the said meridian to intersect the westerly prolongation of the northern boundary of Pastoral Lease 826 (Supplejack); thence easterly by the said prolongation, the northern boundary of Pastoral Lease 826 and its prolongation easterly to intersect meridian of east longitude 132 degrees; thence south by the said meridian to intersect parallel of south latitude 21 degrees 12 minutes; thence east by the said parallel to the point of commencement.

Schedule 5

All that parcel of land in the Northern Territory of Australia bounded by lines described as follows:

commencing at the intersection of the parallel of south latitude 18 degrees thirty minutes with the meridian of east longitude 138 degrees being a point on the Northern Territory and Queensland border; thence west by the said parallel to intersect the meridian of east longitude 135 degrees; thence north by the said meridian to intersect the parallel of south latitude 15 degrees 30 minutes; thence east by the said parallel to intersect the sea coast of the Gulf of Carpentaria, thence generally south-easterly by the said sea coast to intersect the meridian of east longitude 138 degrees; thence south by the said meridian to the point of commencement, and including all Northern Territory of Australia coastal islands south of parallel of south latitude 15 degrees 30 minutes.

Livestock Act 2008

**Revocation of Declarations and
Declaration of Zones for Control of Cattle Ticks**

I, Paul Andrew Kirby, Minister for Primary Industry and Resources:

- (a) under section 58(1)(c) of the *Livestock Act 2008* and with reference to section 43 of the *Interpretation Act 1978*, revoke both of the following:
 - (i) the declaration made by notice entitled "Declared Area Cattle Ticks (*Rhipicephalus microplus*) Parkhurst Strain" dated 9 May 2011 and published in *Gazette* No. G20 of 18 May 2011;
 - (ii) the declaration made by notice entitled "Declared Areas Cattle Ticks (*Rhipicephalus microplus*)" dated 26 October 2013 and published in *Gazette* No. G46 of 13 November 2013; and
- (b) under section 58(1)(c) of the *Livestock Act 2008*:
 - (i) for the control of the notifiable disease cattle ticks (Parkhurst strain), which is an endemic disease, declare the area of land described in Schedule 1 and shown stippled on the map in Schedule 3 to be the Parkhurst Infected Zone; and
 - (ii) for the control of the notifiable disease cattle ticks (*Rhipicephalus microplus* and *Rhipicephalus australis*) in tick free areas, which is an endemic disease, declare each area of land described in Schedule 2 to be the type of zone specified opposite the area.

Dated 30 September 2019

P. A. Kirby
Minister for Primary Industry and Resources

Schedule 1

Firstly, all that area of land in the Northern Territory of Australia that is west, north and east of the boundary described as follows:

Commencing at a point at the mouth of the East Alligator River and NT Portion 1663, then generally south-easterly and southerly by the low water mark of the western bank of the East Alligator River to its intersection at longitude 133 degrees 0 minutes 4 seconds east and the eastern boundary of NT Portion 1662, then generally south along the eastern boundary of NT Portion 1662 (Kakadu), then south along the eastern boundary, west along the southern boundary, north along the western boundary and west along the southern boundary of NT Portion 4774, then west along the southern boundaries of NT Portions 220,1631 and 1630 to the eastern boundary of NT Portion 7123 then south, east, south along the western boundary of NT Portion 709 (Jindare) then west along the northern boundary of NT Portion 709 (Jindare) then south along the western boundary of NT Portion 709 (Jindare) and then west along the northern boundary of NT Portion 5919 (Wagiman) to the Daly River and then north-west along the Daly River to and west along the southern boundary of NT Portion 3435 then south along the eastern boundary of NT Portion 3435 then west along the southern boundaries of NT Portion 3435 and NT Portion 2700 then north along the western boundaries of NT Portion 2700 and NT Portion 1666 to the Daly River and then north-west along the Daly River to the coastline of the Timor Sea.

Secondly, commencing at a point approximately 12 degrees 11 minutes 39 seconds south latitude, and 132 degrees 47 minutes 27 seconds longitude coinciding with the low water mark on the East Alligator River, then on a bearing of 66 degrees and 18 minutes for a distance of 11.62 km more or less then on a bearing of 66 degrees 59 minutes for a distance of 10.61 km more or less then on a bearing of 27 degrees 43 minutes for a distance of 3 km more or less to intersect with Cooper Creek then in an east and south direction along Cooper Creek to the Oenpelli/Maningrida Road then in a west and south-west direction along the centreline of the Oenpelli/Maningrida Road to the Arnhem Highway/Oenpelli Road then in a south-west direction along the centreline of the Arnhem Highway/Oenpelli Road to the eastern boundary of NT Portion 1662 (East Alligator River), then generally northerly and north-westerly by the eastern bank of the East Alligator River to the point of commencement.

Schedule 2

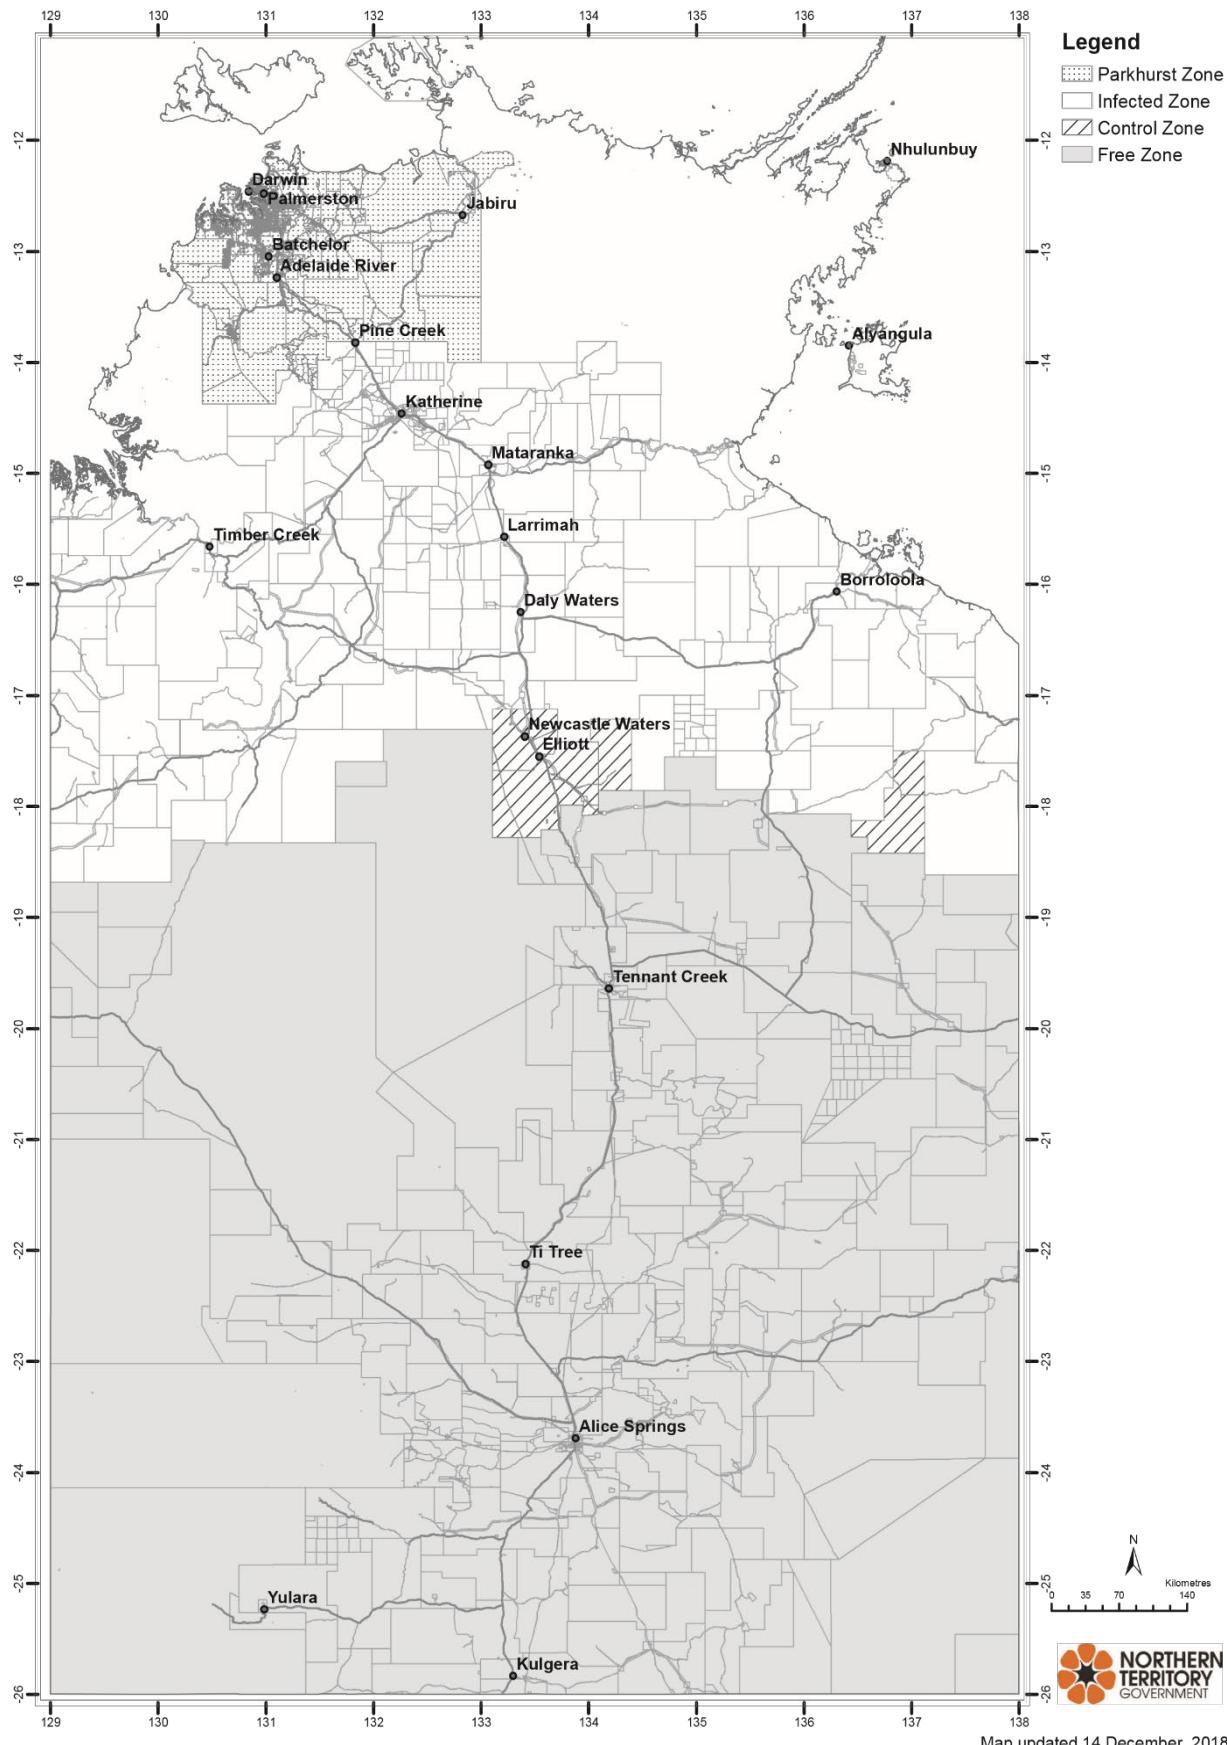

Area of land	Zone
The area of land in the Territory shown unstippled, unhatched and unshaded on the map in Schedule 3 and including the following:	Infected Zone
(a) PPL 1014 (known as Cresswell Downs), PPL 1015 (known as Walhallow), PPL 1018 (known as Mungabroom) and PPL 1059 (known as Beetaloo); (b) NTP 2006 (owned by Waanyi/Garawa Aboriginal Land Trust) and NTP 3918, NTP 3919, NTP 3920, NTP 3921, NTP 3922, NTP 3923, NTP 3924, NTP 3925, NTP 3926, NTP 3927, NTP 3928, NTP 3929, NTP 3930, NTP 3931, NTP 3932, NTP 3933, NTP 3934, NTP 3935 and NTP 3936 (owned by Wampaya Association Incorporated).	
The area of land in the Territory shown hatched on the map in Schedule 3 and including PPL 947 (known as Newcastle Waters), PPL 948 (known as Powell Creek), PPL 949 (known as Tandyidgee), PPL 963 (known as Benmara) and PPL 1072 (known as Ucharonidge).	Control Zone
The area of land in the Territory shown shaded on the map in Schedule 3 and consisting of the following:	Free Zone
(a) land south of the northern boundaries of PPL 925 (known as Brunette Downs), PPL 1001 (known as Helen Springs), PPL 1016 (known as Anthony Lagoon), PPL 1017 (known as Eva Downs), PPL 1033 (known as Mittiebah) and PPL 1034 (known as Mount Drummond); (b) land south of the southern boundaries of PPL 948 (known as Powell Creek), PPL 1002 (known as Wave Hill), PPL 1003 (known as Cattle Creek), PPL 1012 (known as Birrindudu), PPL 1029 (known as Wallamunga), PPL 1074 (known as Murranji), PPL 1076 (known as Dungowan) and NTP 679 and NTP 1643 (known as Hooker Creek).	

In this Schedule:

NTP means Northern Territory Portion.

PPL means Perpetual Pastoral Lease.

Livestock Act 2008

**Revocation of Restriction and Restriction of Livestock Movement
for Control of Cattle Ticks (Parkhurst Strain)**

I, Susanne Elizabeth Fitzpatrick, Chief Inspector of Livestock:

- (a) under section 59(1) of the *Livestock Act 2008* and with reference to section 43 of the *Interpretation Act 1978*, revoke the restriction made by notice entitled "Declared Area Movement Restrictions Cattle Ticks (*Rhipicephalus microplus*) Parkhurst Strain" dated 31 May 2011 and published in *Gazette* No. G23 of 8 June 2011 (as amended); and
- (b) under section 59(1) of the *Livestock Act 2008*, restrict the movement of livestock as set out in the Schedule.

Dated 4 October 2019

S. E. Fitzpatrick
Chief Inspector of Livestock

Schedule

1 Definitions

In this Schedule:

certified solution means a solution of which a sample has been chemically analysed by a laboratory approved by the Chief Inspector and certified by the laboratory to be a sample of a registered acaricide of a registered strength.

live cattle tick means a cattle tick that shows obvious signs of movement or from which bodily fluids can be expressed.

Parkhurst Infected Zone means the area of land declared to be the Parkhurst Infected Zone by the declaration made under section 58(1) of the Act for the control of cattle ticks (Parkhurst strain) as in force from time to time.

registered means registered by the Australian Pesticides and Veterinary Medicines Authority continued in existence by section 6 of the *Agricultural and Veterinary Chemicals (Administration) Act 1992* (Cth).

restricted livestock means alpacas, banteng, bison, buffalo, camels, cattle, deer, goats, llamas and sheep.

2 Livestock unloaded taken to start new movement

If restricted livestock being moved from one place to another are unloaded before reaching their destination, the restrictions imposed by this notice apply separately to:

- (a) the movement from the starting place to the place of unloading; and
- (b) the movement from the place of unloading to the destination.

3 Requirement for inspection, treatment and movement permit

- (1) If restricted livestock in the Parkhurst Infected Zone are to be moved out of the Parkhurst Infected Zone, the owner of the livestock must ensure that the movement does not start unless:
 - (a) the livestock meet the clean inspection and supervised treatment requirements; and
 - (b) a declared area movement permit has been granted for the movement.
- (2) Subclause (1) does not apply if the movement is authorised under clause 5(3).
- (3) Despite subclause (1)(a), the Chief Inspector may authorise the movement if satisfied that it is appropriate to do so.

4 Clean inspection

- (1) The clean inspection requirement is met if an inspector, after inspecting all of the restricted livestock that are to be moved, declares that all of the livestock are free of live cattle ticks.
- (2) The inspection for cattle ticks is to be carried out on the same day as the supervised treatment, but before that treatment is carried out.

- (3) If an inspector finds live cattle ticks on any of the livestock to be moved, a further inspection is to be carried out on all of the livestock in accordance with subclause (2).
- (4) A further inspection under subclause (3) must not be carried out within 3 days after the previous inspection without the approval of the Chief Inspector.

5 Supervised treatment

- (1) The supervised treatment requirement is met if the livestock are treated in accordance with the requirements set out in the Table.
- (2) All supervised treatments must be carried out under the supervision of, and in the manner approved by, an inspector.
- (3) An inspector may authorise the movement of the livestock to a place outside the Parkhurst Infected Zone for the purpose of enabling the livestock to be given treatment by plunge dip.
- (4) A plunge dip treatment requirement is met if the livestock are fully immersed in a certified solution of Amitraz or a certified solution that was certified:
 - (a) for an export yard – within the previous 30 days; or
 - (b) for other yards – within the previous 60 days.
- (5) A spray dip treatment requirement is met if the livestock are thoroughly sprayed with Amitraz or a solution approved by an inspector.
- (6) A injectable macrocyclic lactone treatment requirement is met if:
 - (a) the livestock are treated with a registered injectable macrocyclic lactone; and
 - (b) the treatment is conducted at a registered premises as defined in section 1.05 of the *Export Control (Animals) Order 2004* (Cth).

Table Supervised treatment requirements

Livestock	Treatment type	When treatment required
Banteng, bison, buffalo or cattle	Injectable macrocyclic lactone	Between 3 and 14 days before movement starts
Banteng, bison, buffalo or cattle	Plunge dip	Within 24 hours before movement starts or any longer period not exceeding 48 hours approved by an inspector
Alpacas, camels, deer, goats, llamas or sheep	Spray dip	Within 24 hours before movement starts or any longer period not exceeding 48 hours approved by an inspector

Northern Territory of Australia

Livestock Act 2008

**Revocation of Restriction and Restriction of Livestock Movement
for Control of Cattle Ticks (*Rhipicephalus microplus* and
Rhipicephalus australis) in Tick Free Areas**

I, Susanne Elizabeth Fitzpatrick, Chief Inspector of Livestock:

- (a) under section 59(1) of the *Livestock Act 2008* and with reference to section 43 of the *Interpretation Act 1978*, revoke the restriction made by notice entitled "Declared Area Movement Restrictions Cattle Ticks (*Rhipicephalus microplus*)" dated 29 August 2012 and published in *Gazette* No. G36 of 5 September 2012 (as amended); and
- (b) under section 59(1) of the *Livestock Act 2008*, restrict the movement of livestock as set out in the Schedule.

Dated 23 August 2019

S. E. Fitzpatrick
Chief Inspector of Livestock

Schedule

1 Definitions

In this Schedule:

approved program means a property cattle tick management program approved in writing by the Chief Inspector.

at risk (high) property means a property in the Control Zone where cattle ticks are not known to occur, and that has, within the previous 12 months, been assessed by the Chief Inspector and determined as being at high risk of cattle ticks occurring on the property.

at risk (low) property means a property in the Control Zone where cattle ticks are not known to occur, and that has, within the previous 12 months, been assessed by the Chief Inspector and determined as being at low risk of cattle ticks occurring on the property.

Cattle Ticks Zones Declaration means the declaration made under section 58(1) of the Act for the control of cattle ticks (*Rhipicephalus microplus* and *Rhipicephalus australis*) in tick free areas as in force from time to time.

certified solution means a solution of which a sample has been chemically analysed by a laboratory approved by the Chief Inspector and certified by the laboratory to be a sample of a registered acaricide of a registered strength.

Control Zone means the area of land declared to be the Control Zone by the Cattle Ticks Zones Declaration.

Free Zone means the area of land declared to be the Free Zone by the Cattle Ticks Zones Declaration.

infected property means a property in the Control Zone where cattle ticks are known to occur, and that has, within the previous 12 months, been assessed by the Chief Inspector and determined as having cattle ticks occurring on the property.

Infected Zone means the area of land declared to be the Infected Zone by the Cattle Ticks Zones Declaration.

live cattle tick means a cattle tick that shows obvious signs of movement or from which bodily fluids can be expressed.

non-assessed property means a property in the Control Zone where cattle ticks are suspected to occur, where surveillance has not been completed.

registered means registered by the Australian Pesticides and Veterinary Medicines Authority continued in existence by section 6 of the *Agricultural and Veterinary Chemicals (Administration) Act 1992* (Cth).

restricted livestock means alpacas, banteng, bison, buffalo, camels, cattle, deer, goats, horses, llamas and sheep.

2 Livestock unloaded taken to start new movement

If restricted livestock being moved from one place to another are unloaded before reaching their destination, the restrictions imposed by this notice apply separately to:

- (a) the movement from the starting place to the place of unloading; and

- (b) the movement from the place of unloading to the destination.

3 Requirement for inspection, treatment and movement permit

- (1) If restricted livestock in the Infected Zone are to be moved into or through the Free Zone or Control Zone, the owner of the livestock must ensure that the movement does not start unless:
 - (a) the livestock meet the requirements of a clean inspection and Level 1 treatment specified in Table 2; and
 - (b) a declared area movement permit has been granted for the movement.
- (2) Subclause (1) does not apply if the movement is carried out in accordance with an approved program or approved by the Chief Inspector.
- (3) If restricted livestock in the Control Zone are to be moved within the Control Zone or into or through the Free Zone from a property with an approved program, the owner of the livestock must ensure that the movement does not start unless:
 - (a) the movement is carried out in accordance with the approved program; and
 - (b) a declared area movement permit has been granted for the movement.
- (4) If restricted livestock in the Control Zone are to be moved from a property without an approved program as specified in Table 1, the owner of the livestock must ensure that the movement does not start unless:
 - (a) the livestock meet the requirements of a clean inspection and the treatment specified in Table 1 for the property from which the livestock is moved; and
 - (b) a declared area movement permit has been granted for the movement.

4 Clean inspection

- (1) The clean inspection requirement is met if an inspector, after inspecting all of the restricted livestock that are to be moved, declares that all of the livestock are free of live cattle ticks.
- (2) The inspection for cattle ticks is to be carried out on the same day as the required treatment, but before that treatment is carried out.
- (3) If an inspector finds live cattle ticks on any of the livestock to be moved, a further inspection is to be carried out on all of the livestock in accordance with subclause (2).
- (4) A further inspection under subclause (3) must not be carried out within 3 days after the previous inspection without the approval of the Chief Inspector.

5 Treatment

- (1) A Level 1 or Level 2 treatment requirement is met if the livestock are treated in accordance with the requirements specified in Table 2 within 24 hours before movement starts or any longer period not exceeding 48 hours approved by an inspector.
- (2) All Level 1 and Level 2 treatments must be carried out under the supervision of, and in the manner approved by, an inspector.

- (3) A plunge dip treatment requirement is met if the livestock are fully immersed in a certified solution that was certified:
 - (a) for an export yard – within the previous 30 days; or
 - (b) for other yards – within the previous 60 days.
- (4) A spray dip treatment requirement is met if the livestock are thoroughly sprayed with a solution approved by an inspector.
- (5) A macrocyclic lactone treatment requirement is met if the livestock are treated with a registered macrocyclic lactone in accordance with the instructions of the manufacturer.

Table 1 Movement restrictions from Control Zone

Movement	Property	Treatment
Within the Control Zone	At risk (high)	Level 2
	Infected or non-assessed	Level 1
Into or through the Free Zone	At risk (high)	Level 2
	At risk (low)	Nil
	Infected or non-assessed	Level 1
Through the Control Zone into the Infected Zone	Infected or non-assessed	Level 1

Table 2 Treatment requirements

Livestock	Level 1 treatment	Level 2 treatment
Alpacas, deer, goats, horses, llamas or sheep	Plunge dip or spray dip	Plunge dip or spray dip
Banteng, bison, buffalo or cattle	Plunge dip	Plunge dip, macrocyclic lactone treatment by injection or macrocyclic lactone treatment by pour-on
Camels	Spray dip	Plunge dip or spray dip

Northern Territory of Australia
Notifiable Diseases Act 1981
**Revocation of Approval and
Approval of Form of Declaration**

I, Michael Patrick Francis Gunner, Chief Minister, acting for the Minister for Health, with effect on and from 2 December 2019:

- (a) under section 26A(3) of the *Notifiable Diseases Act 1981* and with reference to section 43 of the *Interpretation Act 1978*, revoke the approval titled "Revocation of Approval and Approval of Form of Declaration" dated 16 July 2018 and published in *Gazette* No. G32 of 8 August 2018; and
- (b) under section 26A(3) of the *Notifiable Diseases Act 1981*, approve for section 26A(2)(a) of the Act, the form of declaration set out in the Schedule.

Dated 10 October 2019

M. P. F. Gunner
Chief Minister
acting for
Minister for Health

Schedule

Donor questionnaire

Thank you for your generosity

Important information for a safe, comfortable donation

Blood donation is very safe, but occasionally problems can happen. This questionnaire helps keep you and patients safe.

All of these questions are important and you need to answer each one honestly. Providing false or misleading information may lead to fines and imprisonment. Some people MUST NOT give blood as it may not be safe for them, or for the patient who receives their donation.

Fainting

About 1 in 100 donors feel faint (dizzy, light-headed, hot, sweaty or unwell) during or straight after donating.

Even fewer, about 1 in 1000, faint (lose consciousness).

Some donors may feel faint or faint after leaving the donor centre.

Tips to reduce the risk of fainting

In the 24 hours before you donate, drink plenty of fluids, especially in warm weather.

In the 3 hours before:

- Drink 750 mL of fluids
- Have something savoury to eat
- Avoid strenuous exercise.

Afterwards, spend at least 15 to 20 minutes in the refreshment area.

For 8 hours after:

- Drink plenty of fluids
- Avoid alcoholic and hot drinks
- Avoid standing for long periods
- Avoid getting overheated.

For at least 12 hours, avoid strenuous or hazardous activities, including jobs where public safety may be affected.

You should check any employment or safety requirements you have. If unsure, please discuss at your interview.

If you feel faint:

- Lie or sit down with your head between your knees
- Ask for help
- If you're driving, pull over, park, lay your seat back and call for assistance.
Do not continue driving.

Bruising

Small bruises are not uncommon and generally resolve in a few days. Larger bruises, which may be uncomfortable, occur once in every 300 donations. To reduce the risk:

- Keep the bandage on for 2 hours
- Minimise lifting or carrying with your donation arm for 24 hours.

If you develop a bruise, an ice pack and/or pain reliever may help. If you bleed, apply pressure and raise your arm.

Iron levels

Blood donation can cause low iron (iron deficiency), particularly in:

- frequent whole blood donors
- women of child-bearing age.

Low iron may cause tiredness, difficulty concentrating and low haemoglobin (anaemia).

We check haemoglobin before each donation, but not iron. Haemoglobin can be normal in early iron deficiency.

We recommend:

- A healthy, iron-rich diet
- Women 18-45 take iron after each whole blood donation
- Women trying to become pregnant build healthy iron levels for the increased requirements of pregnancy.

Speak with your doctor before donating if you're concerned about iron or how often to donate. For more information ask our staff or visit lifeblood.com.au

Rare complications may occur in 1 in every 1500 donations and include:

- Nerve irritation
- Local infection or clot
- Insertion of the needle into an artery.

Testing your donation

To ensure patient safety, we test all successful donations for hepatitis B, hepatitis C and HIV (AIDS virus). We test some donation types for HTLV and syphilis.

If your results are significantly abnormal, we'll notify you using the contact details you provided.

You can change your mind about donating any time. Just tell a staff member.

If you learn of any reason why your blood shouldn't be used, please call us on 13 14 95. In particular, notify us immediately if you:

- Develop a cough, cold, diarrhoea or other infection within a week of donating, or
- Are diagnosed or hospitalised with a serious infection within 2 months of donating

Remember, our staff are trained to deal with any potential problems and are here to help. If you have any questions or concerns, or you feel unwell, please ask a staff member.

If you feel unwell, or are concerned after your donation call us on **13 14 95** or see your doctor.

This page has been intentionally left blank.

A New and returned donors

Please complete this section only if:

- you are a new donor, or
- you have not donated within the last 2 years.

Otherwise, proceed to section B.

Please complete using blue or black ink (not pencil) by placing a cross or a tick in the relevant box.

A1 Have you ever volunteered to donate blood before? Yes No
A1a. If yes – where? _____ When? _____

A2 Have you ever been advised not to give blood? Yes No

A3 Have you ever had:

- Anaemia or any blood disorder?
- A serious illness, operation or been admitted to hospital?

 Yes No

A4 Have you ever been pregnant (including miscarriage and termination of pregnancy)? I am male Yes No

A4a. If your answer is "Yes" – have you been pregnant in the last 9 months? Yes No

Yes No

A5 Have you ever had:

- A head injury?
- Stroke or epilepsy?
- Heart or blood pressure problems, or chest pain?
- Rheumatic fever or a heart murmur?

 Yes No

A6 Have you ever had:

- Bowel disease?
- Stomach or duodenal problems or ulcers?
- Kidney or liver problems?
- Lung problems including tuberculosis (TB)?

 Yes No

A7 Have you ever had:

- Diabetes?
- A thyroid disorder?
- An autoimmune disease e.g. rheumatoid arthritis or lupus?

 Yes No

A8 Have you ever:

- Had cancer of any kind including melanoma?
- Received a transplant or graft (organ, bone marrow, cornea, dura mater, bone, etc.)?

 Yes No

A9 Have you ever had:

Surname/family name _____ Given name _____

Date of birth / /

How your information will be used

Your information will be:

- used to:
 - assess your eligibility to donate blood,
 - ensure the safety of both donors and recipients,
 - contact you for future donations, and
 - assist with research including improving the safety of transfusion and donation;
- treated as confidential and held in compliance with the Privacy Act 1988 (Cth), State/Territory health records legislation and Lifeblood's Privacy Policy. Our Privacy Policy explains how we collect, use, store and disclose your personal information; how you may access or seek correction of your personal information; how to make a complaint about a breach of your privacy, and how we will handle that complaint.

Our Privacy Policy is available on donateblood.com.au

How your blood will be used

Thank you for your special gift of blood.

Here's how your blood donation will be used:

- Most of the time, we'll use your donation to help people who are unwell. This may include the supply of plasma from your donation to CSL Behring who is contracted by the Australian government to manufacture plasma-derived medicines for Australians.
- Your donation may be used by Lifeblood or other approved organisations for the purposes of research, teaching and checking quality.
- We may supply some red cells from your donation for the production of red cell testing kits which are used by hospitals, pathology services and blood banks in Australia to assist in the correct matching of blood for transfusions.
- A part of your donation will also be stored in our Blood Sample Archive for possible future testing and research; samples that are no longer required will be destroyed.

Approval from an appropriate Human Research Ethics Committee is required before any research is undertaken on any part of your donation.

Occasionally we may ask you to undergo follow up tests which you have the option to decline.

Declaration

- I agree for my donation to be used for the purposes set out above;
- I have been provided with, read and understood "Important information for a safe, comfortable donation" and had the opportunity to ask questions;
- I accept the risks associated with blood donation and agree to follow the instructions of Lifeblood staff to minimise these risks;
- I agree to notify Lifeblood if, after my donation, I become aware of any reason why my donation should not be used;
- I declare that I have understood the information on this form and answered the questions honestly and to the best of my knowledge; and
- I understand there are penalties, including fines and imprisonment, for providing false and misleading information.

This declaration is to be signed in the presence of a Lifeblood staff member
