

A moment of  
your  
**time**  
could save  
our  
**swine**

African swine fever is a contagious disease that's spreading rapidly and will devastate our pork industry if it gets into Australia.

A property identification code (PIC) helps us to manage disease outbreaks. It doesn't matter how big or small your property is, register for your free PIC. Go to [nt.gov.au/pic](http://nt.gov.au/pic)

**Got a pig? Get a PIC!**

**If it looks suss, call us 1800 675 888.**
