

How to make Bush Medicine Soap

Collect the bush medicine you will use.

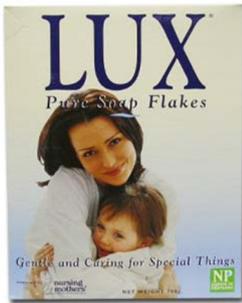

Get it ready (ask elders about the best way to do this).

Priscilla covered the leaves in water.

Then she stirred it until it boiled.

You will need soap flakes or soap melt (use the packet instructions to make it).

Priscilla used soap melt.

Mix the bush medicine and soap water. Priscilla used 3 tablespoons of bush medicine for 1 soap melt.

Pour in to moulds and let it set.
