

Notice of Application for the Grant of a Mineral Title

Mineral Titles Act 2010 – Section 66

Approved Form 24, Section A

Notes for Approved Form 24

Section 66 of the *Mineral Titles Act 2010* (the Act) requires all applicants for a mineral title to serve a notice on the landowner of each parcel of land affected by the application, no later than 14 days after lodging the application with the Department of Industry, Tourism and Trade (the department). This can include Native Title claimants and National Parks.

Previously this requirement applied to each landowner identified through a search of the land register, Integrated Land Information System (ILIS) only, however as provided for at s66(3) of the Act this has now expanded to incorporate the station/land manager, where the application is for an exploration licence and falls over a pastoral lease.

This template form is to be used for all notifications and proof of service required by Section 66.

Section A: Applies to all mineral title applications

Completion is mandatory for **all** mineral title applications and Section A must be sent to each landowner identified as being affected by the application.
