SECTION B: ADVANCE CARE STATEMENT
THIS IS NOT A COMPULSORY SECTION

An Advance Care Statement is a statement of your views, wishes and beliefs about how you would like your appointed decision maker(s), health professionals and any other person providing care for you to act.

It is recommended that you discuss this section with your decision maker(s), family or doctor as it is important that anything you write should be readily understood by the people who are supporting and treating you.

1. What gives your life meaning? What do you value most in life? For example, independence, being on country/at home, being able to work, food, family etc.

2. a) If nearing death, what are your goals/priorities? What is most important to you? For example, dignity, to be comfortable, and to have my friends and family around me etc.

b) If nearing death, what is unacceptable to you? What do you NOT want? For example, not wanting particular family or people to visit or see me, being alone and feeling helpless etc.

c) Consent to palliative and comfort care so that you can feel better, even though it won't cure you:

Yes, I would like to receive palliation and comfort care

3. Where would you like to die/finish up?

5. Any cultural or spiritual requests?

6. After death, what is important to you? For example, a ceremonial smoking, or for my body to be returned to my birth country, blessings, cremation, burial etc.

Note to section B, question 5 – if these details of burial/cremation are already provided in your will you do not need to restate them here

SECTION C: ADVANCE CONSENT DECISION

THIS IS NOT A COMPULSORY SECTION

Advance Consent Decisions are legally binding on your health care provider and can include decisions about organ transplants, palliative care, instructions not to be put on life support, or directions about not receiving blood transfusions.

Cardio Pulmonary resuscitation (CPR): refers to medical procedures that may be used to restart your heart or breathing if they stop due to severe illness. It usually involves very strong pumping on your chest, electric shocks to your heart, medications injected into your veins and breathing tubes being put into your throat to allow a machine to breath for you.

1. If my heart stops and CPR is an option:

- Please try to restart my heart or breathing (attempt CPR)

Except if it results in an unacceptable outcome. Refer to what you wrote in section 2b above and describe unacceptable outcomes, for example, I will not be able to live independently or go home.

Unacceptable outcomes include:

- Please allow me to die a natural death. Do not restart my heart or breathing (No CPR)

2. Are there specific medical treatments that you DO NOT want?

- Artificial feeding/tube feeding:
- Renal dialysis:
- Blood transfusions;
- Other:

3. Do you have any religious or ethical beliefs that may affect your treatment? If yes, describe how your beliefs might affect your treatment:

For example: *'Because of my religious beliefs, I do not want to receive any blood transfusions or organ transplants'.*

<p>Note: It is strongly recommended that before completing this document you discuss your options with your doctor who knows your medical history and views. The doctor will also be able to explain any medical terms that you are unsure about and will confirm that you were able to understand the decisions you have made in the document and that you made those decisions voluntarily. You can also ask your doctor to witness your signature.</p> <p>Note: It is your legal right to refuse any medical treatment. However, you may not be entitled to insist on receiving a particular treatment (if, for example, your health-care provider's professional opinion is that the treatment would not be of benefit to you).</p>
