

# UNDERSTANDING ADELAIDE RIVER FLOW VARIABILITY

More than 99% of river flow in Adelaide River occurs in the Wet season, the river looks very different depending on the time of year

## ADELAIDE RIVER AT RAILWAY BRIDGE

### A WATER PLAN IS BEING DEVELOPED FOR THE ADELAIDE RIVER CATCHMENT

- Informed by science
- Developed with the community
- Adelaide River remains free-flowing
- Maintaining environmental and cultural values
- Preserving our Territory lifestyle
