BUILDING ADVISORY SERVICES BRANCH

BUILDING NOTE

Contact Officer: Kevin Newhouse

Edition Number: 13-9/95

STANDARD FORMAT FOR GLAZING CERTIFICATION

A standard format for Certification of Glazing by manufacturers has been developed by the Building Advisory Committee with the assistance of the glazing industry.

Certification by window manufacturers of glazing and fixing method is permitted on Class 1 and 10 buildings and Class 2 buildings up to three storeys in height.

Building Certifiers should ensure that all manufacturer's glazing certificates received for work approved after 1 November 1995 are in accordance with the attached format.

Please note that the certificate requires certification of glazing and fixing method

A copy of the certificate is attached together with a Deemed to Comply sheet for design pressures.
