

To The Mollusc Licensee

Pursuant to Section 34 of the *Fisheries Act 1988* (the Act), it is a **requirement that you submit catch and market returns to the Director of Fisheries** for each commercial fishing licence you hold. The manner and form for the required return(s) is outlined, with examples, on the following pages. These must be read in conjunction with this notice.

The information on the return form is used by Fisheries to monitor stocks and assist in the sustainable management of the fishery. The accuracy of data is, therefore, very important.

The return forms request the minimum information necessary. Any additional information, such as fish numbers, size or condition that you may wish to add will be very useful.

The information you provide is **CONFIDENTIAL** to Fisheries, subject to Section 36 of the *Fisheries Act 1988* and the *Information Act 2002*. Information Privacy Principles apply to the information collected through catch and market returns.

Any interaction with Threatened, Endangered and Protected Species (TEPS) (and other species as may be listed on the return form) **must** be recorded in the area provided on the return form or in the comments section. In addition, any interaction with TEPS that occurs within **Territory waters** should be reported to the NT Wildlife Incident Reporting number, 1800 453 941. Please note that as long as operators are fishing in accordance with fisheries legislation, it is not an offence to interact with protected species. It is however an offence **NOT** to report these interactions.

The Australian Government *Environment Protection and Biodiversity Conservation Act 1999* requires the reporting of any interaction with listed TEPS within **Commonwealth waters**. Any interaction that occurs within Commonwealth waters must be reported to the Department of Environment, Water, Heritage and the Arts within 7 days on telephone 1800 641 806 or email protected.species@environment.gov.au

Your co-operation and contribution to the monitoring of our fisheries is greatly appreciated.

Ian Curnow
Director of Fisheries
