## **PLUMBING & DRAINAGE STATUS REPORT**

A new plumbing & drainage status report form has been designed by the Branch in consultation with the Master Plumbers Association (NT) for use on applications for Certificate's of Occupancy related to Building Approvals issued prior to 23 September 1993.

Permits after the above date will require the current certification certificate to be issued by a Certifying Plumber.

A copy of the revised Plumbing and Drainage Status Report is attached.

Fabio Finocchiaro  
Director  
Building Control
