National Assessment Guidelines for the Determining a Write-Off

All damaged vehicles that are assessed as being a Total Loss as per the definition below must be assessed using the Damage Assessment Criteria for the Classification of Statutory Write-Offs, published by the National Motor Vehicle Theft Reduction Council to determine if the vehicle is a Statutory or Repairable Write-Off.

The Damage Assessment Criteria for the Classification of Statutory Write-Offs, are available on the National Motor Vehicle Theft Reduction Council website at: <http://www.carsafe.com.au/stakeholders-a-partners/publications/management-of-written-off-vehicles>

A vehicle or trailer that is assessed as a Total Loss and is not a Statutory Write-off.

A vehicle that has sustained extensive damage to major vehicle components, has been assessed as a Total Loss and meets the Statutory Write-Off criteria as detailed in the Damage Assessment Criteria for the Classification of Statutory Write-Offs, as published by the National Motor Vehicle Theft Reduction Council.

Note: "Total Loss" means a motor vehicle or trailer damaged by collision, fire, flood, accident, trespass, dismantling, demolition or other event to the extent that its fair salvage value plus the cost of repairing the vehicle for use on a road or road related area would be more than the fair market value of the vehicle immediately before the event that caused the damage.
